Learning about *Life and God's Love*

"I can't say enough about Kindergarten at Pilgrim! My son loved art, music—even reading and math are taught in a fun way. The facilities are great and the teacher was so attentive. I recommend Pilgrim to all my friends. This is one of the best decisions we've made."

You want your child to develop a lifelong love of learning. So do we.

That is why our comprehensive Kindergarten program integrates age-appropriate academics, life skills, music, art, physical activity and lots of fun with the Christian worldview you would expect from one of South Jersey's first Christian schools.

Isn't it time you found out what makes our school one of the region's premier private schools?

Call us today at 609-965-2866 or log onto our website at www.pilgrimacademy.org. Ask about our Kindergarten Open House or about tours and interviews with our Headmaster.

Placement in next year's Kindergarten class is limited. So be sure to call us today and help your child begin learning for life!

Our rural 40 acre campus gives our students a safe environment with all the amenities you would expect at a top-rated K-12 school including playgrounds, in-class computers, library, gymnasium, music and art rooms and performance facilities.

Children in our accredited, full day program build a solid foundation with expert instruction.

We teach children about God's truth with stories and applications from His Word. Academic topics include comprehension-centered reading,

problem-solving math skills and introductory science, history and literature.

We believe music, art and physical activity are important for growing students. We use interdisciplinary learning throughout our Kindergarten curriculum.
